## Culture, Race and Neoliberalism in Australia

By Jon Stratton

*Uncertain Lives* is the first book to examine the impact of neoliberal policies on everyday life in Australia. Going beyond the discussions of multiculturalism that dominated the 1980s and 1990s, *Uncertain Lives* examines the persistence of race and racism in the Australian experience.

“For thirty years, Jon Stratton has been the sharpest, most acute observer of cultural phenomena around. This latest collection of his investigations . . . is further testimony to the extraordinary contribution he has made to cultural studies around the globe.”

“. . . At once analytical and impassioned, this is a landmark book offering a rigorous and inspired account of the destructive ways in which neoliberalism has critically transformed Australian society and culture.”
